

KID'S EMBROIDING SET

(Instructions in Japanese English)

LET'S ENJOY HANDCRAFT SET!

There is tremendous increases all over the world today that many people again enjoying various handicrafts, and the center of these is the United States.

One of these handicrafts, embroiding is the simplest that just consider coloring of threads, and yet you can produce beautiful piece by making contrast of fabric and thread with technique of making bright and shade on the design.

Gorgeousness of embroiding is really appearing to our modern sense.

Once you learned the basic methods of embroiding, you can apply to many different ways to produce unique productions. You also can combine these methods to other type of handicrafts. This also brings you a enjoyment of working and producing something, which ready-made can not.

EMBROIDING

6 different ways of basic methods is described here. You choose color of thread match to your fabric, then begin your embroiding, following your pattern. (Swan or any other animals & birds)

LILY-YARN

Let's use your brain a little bit, and make a beautiful Lily-yarn string.

Put your chose string for each nail and work for any length you like, then change to other color of thread if you like and continure Repeat this as long as you want to complete desired length of string.

BEADS

Here you find 5 colorer mixed beads set. String your chose beads, and put several pieces together, as you like. Make different colored strings into circle for your necklace. Let's make othes types of ornament yourself. Apply these principle methodes and make broach or bracelet, and any other thing as you like.
